the two volume set lncs 13451 and 13452 constitutes revised selected papers from the cicling 2019 conference which took place in la rochelle france april 2019 the total of 95 papers presented in the two volumes was carefully reviewed and selected from 335 submissions the book also contains 3 invited papers the papers are organized in the following topical sections general information extraction information retrieval language modeling lexical resources machine translation morphology syntax parsing name entity recognition semantics and text similarity sentiment analysis speech processing text categorization text generation and text mining

words from the ancestors in paperback more than a simple anthology is a poetic expression of a world view a philosophy and a way of life that all at once honour the past acknowledge the present and embrace the future with highly distilled alliterative form rich in symbolism and allegory this volume embodies decades of learning and contemplation of the indigenous cultures of ancient europe rooted in the land and within the ancient cultures yet full of insight still every bit as much applicable to life in the modern day and by which even to inspire future generations dano hammer s poetry expresses an ancient and timeless wisdom alongside a boundless hope for the future dano hammer is a writer poet singer and rapper musician artist and craftsman living on salt spring island in british columbia canada

this handbook provides an up to date survey of the field of corpus linguistics a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade corpus linguistics investigates human language by starting out from large collections of texts spoken written or recorded these language corpora which are now regularly available in electronic form are the basis for quantitative and qualitative research on almost any question of linguistic interest many techniques that are in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century when linguistics began to make use of mathematical and empirical methods modern corpus linguistics has used and developed these methods in close connection with computer science and computational linguistics the handbook sketches the history of corpus linguistics shows its potential discusses its problems and describes various methods of collecting annotating and searching corpora as well as processing corpus data it also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics the over 60 articles included in the handbook are divided into five sections 1 the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics 2 corpus compilation 3 corpus types 4 preprocessing of corpora 5 the use and exploitation of corpora the final section gives an overview of the results of corpus studies obtained in phonetics phonology morphology syntax semantics sociolinguistics historical linguistics stylometry dialectology and discourse analysis it also reports on recent advances made in human and machine translation contrastive studies computer assisted language

learning and automatic summarization the contributors to the volume are internationally known experts in their respective fields the handbook is intended for a wide audience ranging from teachers university students and scholars to anyone interested in the use of computers in linguistic analyses and applications

drawing upon ancient and contemporary theologians dani treweek offers biblical historical cultural and theological reflections to retrieve a theology of singleness for the church today far from being a burden she shows that singleness presents the church with a foretaste of the eschatological reality that awaits all of god s people

in the early modern period the english language was practically unknown outside of britain and ireland so the english who wanted to travel and trade with the wider world had to become language learners john gallagher explores who learned foreign languages in this period how they did so and what they did with the competence they acquired

nobody can deny that an account of grammatical change that takes written contact into consideration is a significant challenge for any theoretical perspective written contact of earlier periods or from a diachronic perspective mainly refers to contact through translation the present book includes a diachronic dimension in the study of written language contact by examining aspects of the history of translation as related to grammatical changes in english and greek in a contrastive way in this respect emphasis is placed on the analysis of diachronic retranslations the book examines translations from earlier periods of english and greek in relation to various grammatical characteristics of these languages in different periods and in comparison to non translated texts
