this book deals with theoretical problems that arise at points of contact between the concerns of philosophers and historians about the practice of historiography in bringing together these critical studies on diverse but related themes the book offers insight into the aims and methods of those working in theory of historiography in recent years especially in english speaking countries

as climate change becomes an increasingly important part of public discourse the relationship between time in nature and history is changing nature can no longer be considered a slow and immobile background to human history and the future can no longer be viewed as open and detached from the past times of history times of nature engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts focusing on the history of knowledge media theory and environmental humanities this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change

professor reinhold a distinguished senior classicist has produced a fascinating and accessible collection of essays devoted to the study of ancient history among the articles included are the generation gap a major survey exploring myths of the uprising of one generation against another augustus conception of himself a detailed summary and interpretation of augustus life and career and the declaration of war against cleopatra an investigation of the charge against cleopatra that she betrayed her pledge to rome as a client ruler taken together these essays form a unified and coherent survey of ancient history that will appeal to a broad audience

this handbook presents a comprehensive concise and accessible overview of the field of historical international relations hir it summarizes and synthesizes existing contributions to the field while

presenting central themes approaches and methodologies that have driven the development of hir providing the reader with a sense of the diversity and research dynamics that are at the heart of this field of study the wide range of topics covered are grouped under the following headings traditions demonstrates the wide variety of approaches to hir thinking international relations historically different ways of thinking ir historically share some common concerns and areas for further investigation actors processes and institutions explores the processes actors practices and institutions that constitute the core objects of study of many hir scholars situating historical international relations critically reflects about the situatedness of our objects of study approaches examines how hir scholars conduct and reflect about their research often in dialogue with a variety of perspectives from cognate disciplines summarizing key contributions and trends while also sketching out challenges for future inquiry this is an invaluable resource for students academics and researchers from a range of disciplines particularly international relations global history political science history sociology anthropology peace studies diplomatic studies security studies international political thought political geography international law

in jesus and the chaos of history james crossley looks at the way the earliest traditions about jesus interacted with a context of social upheaval and the ways in which this historical chaos of the early first century led to a range of ideas which were taken up modified ignored and reinterpreted in the movement that followed crossley examines how the earliest palestinian tradition intersected with social upheaval and historical change and how accidental purposeful discontinuous contradictory and implicit meanings in the developments of ideas appeared in the movement that followed he considers the ways seemingly egalitarian and countercultural ideas co exist with ideas of dominance and power and how human reactions to socio economic inequalities can end up mimicking dominant power in this case the book analyzes how a galilean protest movement laid the foundations for its own brand of imperial rule this evaluation is carried out in detailed studies on the kingdom of god and christology sinners and purity and gender and revolution

history and philosophy of science and technology is a component of encyclopedia of physical sciences engineering and technology resources in the global encyclopedia of life support systems eolss which is an integrated compendium of twenty one encyclopedias the theme on history and philosophy of science and technology in four volumes covers several topics such as introduction to the philosophy of science the nature and structure of scientific theories natural science a short history of molecular biology the structure of the darwinian argument in the origin of species history of measurement theory episodes of xx century cosmology a historical approach philosophy of economics social sciences historical and philosophical overview of methods and goals introduction to ethics of science and technology the ethics of science and technology the control of nature and the origins of the dichotomy between fact and value science and empires the geo epistemic location of knowledge science and religion scientific knowledge and religious knowledge significant epistemological reference points thing called philosophy of technology transitions from function oriented to effect oriented technologies some thought on the nature of modern technology technical agency and sources of technological pessimism these four volumes are aimed at a broad spectrum of audiences university and college students educators and research personnel

in this captivating journey through the echoes of history we explore the profound impact of the past on the human experience delving into the relationship between the individual and history we examine how our identities and destinies are shaped by the events that came before us we investigate the role of historical narratives in shaping culture and power dynamics and explore the enduring relevance of history in our quest for a better future with each chapter we uncover new insights into the human condition gaining a deeper understanding of the forces that shape our lives from the triumphs and tribulations of individuals to the rise and fall of civilizations history offers a rich tapestry of lessons for us to learn from this book is not just a collection of historical facts and dates it is a thought provoking exploration of the ways in which the past continues to reverberate in the present through the eyes of historians philosophers and storytellers we gain a deeper appreciation for the complexities of human nature and the challenges and opportunities that lie ahead whether you are a

history buff a student of life or simply someone who is curious about the world around you this book will provide you with a fresh perspective on the past and its enduring power to shape our lives join us on this captivating journey through time as we uncover the secrets of history and discover its profound relevance for the future if you like this book write a review on google books

this guide to the study and use of military history is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study it is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past

one striking weaknesses of our financial architecture which helped bring on and perhaps deepen the panic of 2008 is an inadequate appreciation of the past information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples history and financial crisis lessons from the 20th century is an attempt to broaden the range of historical sources used by policy makers to understand and treat financial crises many recent discussions of the 2008 panic and the economic turmoil have found the situation to either be unprecedented or greatly similar to that of 1931 however the book s wide range of contributors suggest that the economic crisis of 2008 cannot be categorised in this way this book was originally published as a special issue of business history

there are many stories we can tell about the past and we are not perhaps as free as we might imagine in our choice of which stories to tell or where those stories end john arnold s very short introduction is a stimulating essay about how we study and understand history the book begins by inviting us to think about various questions provoked by our investigation of history and explores the ways these questions have been answered in the past concepts such as causation interpretation and periodization are introduced by means of concrete examples of how historians work giving the reader a sense of the

excitement of discovering not only the past but also ourselves about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

ecclesiastes is a persuasive speech with a rhetoric so unique that it can be easily misunderstood it speaks powerfully to believers as well as nonbelievers because it addresses the question of the meaning of life in the most satisfying way the heart of this book is an expositional commentary that interprets ecclesiastes as authoritative scripture it seeks to recover the rhetoric of the speech in terms of its comprehensive message on the meaning of life as well as its compelling force to get the message across preceding the expositional commentary is an introduction to ecclesiastes that presents a new approach to outlining and reading ecclesiastes as a coherent speech it also presents an overview of the forest the overall rhetorical flow of the speech from beginning to end this is to prevent one from getting lost when immersed in the trees of the expositional commentary following the expositional commentary are two topical studies to give ecclesiastes the breadth and depth of coverage it deserves the first is an interdisciplinary exposition on the meaning of life the second is an interpretive essay to defend exegetically the interpretation of ecclesiastes as a coherent speech
